QHSSE Commitments Training

As part of our ongoing commitment to maintaining the highest standards across our operations, we held our regular QHSSE Commitments training this month. **Lead by Azhar and Christina, our Security and QHSE managers in CPH**, this session serves both as a refresher for our current employees and an introduction for new team members, ensuring that everyone shares the same understanding of our expectations and responsibilities. The training covered key topics including:

- *Everyday QHSSE responsibilities*
- *Cybersecurity awareness and best practices*
- *Food quality and food safety*
- *Identifying and safety hazards*
- *Special meal requirements and handling procedures*
- *Maintaining compliance and protecting our customers, colleagues, and business*

Thank you to everyone who participated and contributed to another successful session. By continuously reinforcing these commitments, we strengthen our safety culture and ensure we continue delivering the highest standards every day!

Happy 30th Birthday, Christina!

A huge **happy 30th birthday** to our QHSE Manager for Denmark, **Christina Stilund**! 🎉 The celebration was made even sweeter thanks to her office partner, **Dennis Jensen**, who surprised her with a **homemade chocolate cake**, the team calls him Dennis the baker! And if you know Christina, you'll know that's her absolute favourite! As if that wasn't enough to celebrate, we'd also like to congratulate Christina on being featured in the **QHSSE Newsletter – July 2026**, recognising her appointment as **QHSE Manager at Country Level for Denmark**.

New talents have joined us at country level:

CHRISTINA STILUND DROS

QHSE Manager, Denmark

Graduated with a master in food science and technology with a specialization in dairy science from the University of Copenhagen. Her education has given her knowledge on food (especially dairy) chemistry, microbiology, production, quality and safety as well as sustainability, health and nutrition. She has been working in the culinary industry for many years and since October 2024 she joined Newrest.

Congratulations, Christina, on this exciting milestone, your well-deserved recognition, and of course, your 30th birthday!

Football Fever Across Scandinavia!

This month, our **CPH team** got together at the famous **Islands Brygge big screen** to enjoy the FIFA World Cup clash between **France and Spain**. It was a great evening filled with good company, plenty of football spirit, and lots of cheering as colleagues came together outside of work.

The football excitement didn't stop in Copenhagen! Our colleagues in **Oslo** also shared a snapshot of themselves proudly supporting **Les Bleus** from Norway. It was great to see our teams connected by the same passion, even across different countries.

Unfortunately for our many French colleagues, this time **France's World Cup journey came to an end**. While the result wasn't the one they hoped for, they still had plenty of memorable moments throughout the tournament.

Maybe in four years... Allez Les Bleus! 

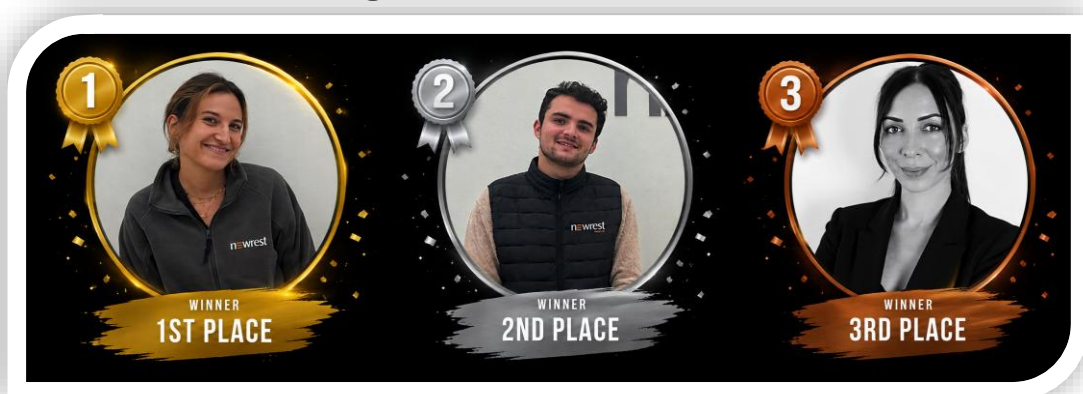

Newrest CPH World Cup – We Have Our Winners!

During the FIFA Club World Cup, the **CPH unit** came together to take part in our **Newrest World Cup Prediction League**, with colleagues putting their football knowledge to the test by predicting match results throughout the tournament.

The competition quickly became a great source of fun around the office, with **most of the CPH team participating** and the leaderboard changing from week to week. There were plenty of close calls, with only a handful of points separating the top players for much of the competition. In the end, however, three participants managed to pull ahead and secure their place on the podium.

Congratulations to our winners:

1st Place – Océane Multari – 4,665 points

2nd Place – Dorian Liard – 4,562 points

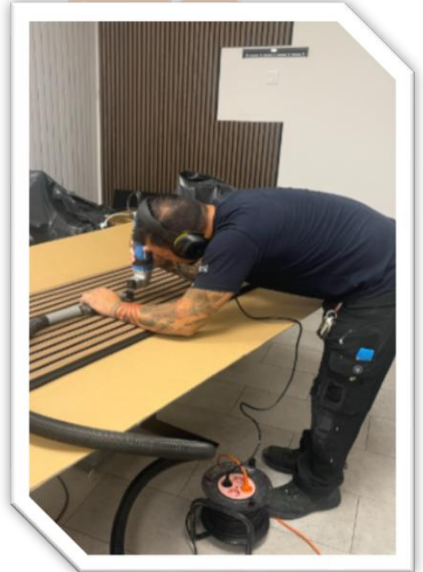

3rd Place – Anissa Blaszczyk – 4,560 points

As announced at the start of the competition, our top three winners will each receive a **football jersey of their choice from a World Cup national team**. A well-deserved reward after weeks of accurate predictions and some impressive football knowledge!

Congratulations once again to our winners!

Refreshing & Improving our Common Areas!

Our Maintenance team has been busy enhancing our workplace with several improvement projects. Recent achievements include the **complete refurbishment of our main meeting room**, creating a more modern and collaborative environment, as well as the redesign of the production entrance to improve both appearance and functionality.

These initiatives are part of our ongoing commitment to providing a safer, more welcoming workplace while continuously strengthening our food safety and quality standards.

Thank You & Good Luck, Cristian!

Last Friday marked Cristian Lazarte's final day with us.

During his time as Supply Chain Manager, Cristian has made a valuable contribution to both our team and the company, playing an important role in improving our supply chain performance and helping us move forward. Beyond the results, Cristian has been a highly appreciated colleague and an important part of the team.

Cristian, thank you for your dedication, commitment, and everything you have contributed during your time with us.

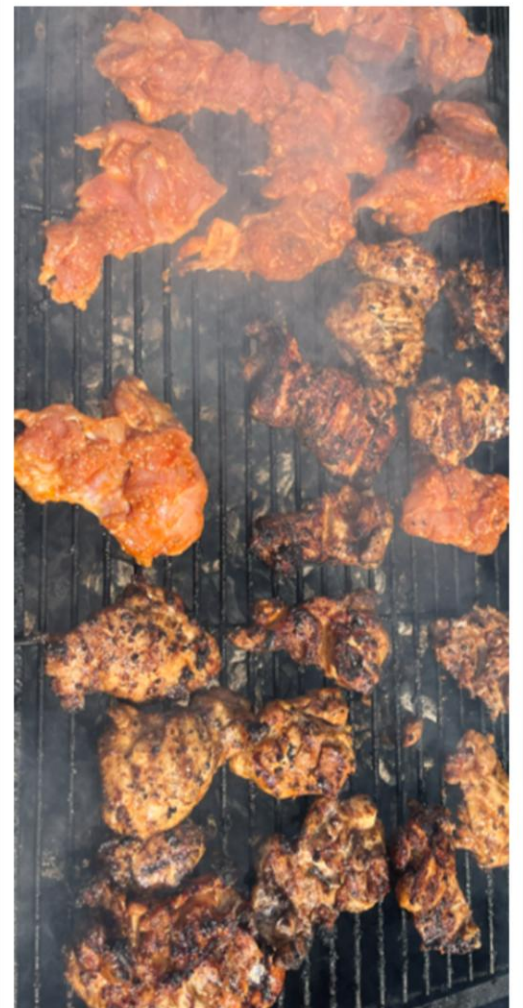

We wish you all the very best in your next chapter!

Managers on duty for their teams!

At the end of July, we gathered for another one of our much-appreciated BBQs! This time, the menu included grilled chicken, halloumi, kebab skewers, and a variety of sides. As always, the BBQ was well received and gave everyone a chance to enjoy some good food together.

These BBQs are something we try to arrange regularly as a small way of showing our appreciation to all our employees for their hard work and commitment. A big thank you to everyone who joined us — we hope you enjoyed it as much as we did!
